Bent Tree Child Development Center Celebrates Earth Day!

What better opportunity to teach children about our planet, than
Earth Day!.....

Addison, TX, April 22, 2009: Preschool students attending Bent Tree Child Development Center participated in Earth Day activities as part of their celebrations during The Week Of The Young Child. "Children are our future." said Mary Barter Center Director. Classes recycled, brought cat and dog food for local animal shelters, planted flowers and bushes around the school and sang songs about how **they** can make a difference with their planet. Mary shared that every child is important. Every child will grow and make a difference to the world we live in and it is up to us as educators to foster a love of learning and environmental pride.....
