THE PHOENIX SCHOOLS STAND UP AGAINST POVERTY

Students at the Phoenix Elementary/Middle School of Folsom participated in a new Guinness World Record by standing for at least one minute with 38.8 million people around the world on Wednesday, October 17, 2007. The gathering was an official event of Stand Up Against Poverty. Students demonstrated their support by creating a stopwatch formation with middle school children joined together as the second hand counting down the minute. The depiction captured the essence of the cause by communicating to leaders worldwide that the clock is ticking on their promise to eradicate world poverty by the year 2015.
