MINI-SKOOL EARLY LEARNING CENTERS PURCHASES WINWOOD CHILDREN'S CENTERS

Winwood Children's Centers was purchased in March, 2007 by Mini-Skool Early Learning Centers, one of North America's largest privately owned child care and early education providers. With centers in the Northern Virginia communities of Ashburn Farms, Fairfax, Gainesville, Lansdowne, Reston and South Riding, Winwood Children's Centers offers outstanding educational programs for children from infants through preschool and private kindergarten.

"We are very impressed with the N. Virginia area. With an established presence in that area since 1999, Winwood Children's Centers is a wonderful addition to the Mini-Skool family and will remain operating as Winwood. Their approach to child care and early education are a great complement to our programs," says Sharon Moran, Chief Operating Officer for Mini-Skool Early Learning Centers.

Located in Scottsdale, AZ, Mini-Skool Early Learning Centers is one of North America's largest privately owned child care and early education providers, operating over 100 child care, early education, elementary and middle schools in the United States and Canada.
